Back to School

FORT MCKAY
FIRST NATION

**Sėkwī hōnėłtėnikōę honi
WE'RE READY! Nikisi-wawiyinān**

**Take a look inside
and learn about
how we can all
be safer this
school year!**

**Did you do
the daily
screening
questionnaire
today?**

How we go to school this year could change, and if it does, we'll be ready together.

Scenario 1

We're all back in our classrooms, with lots of safety precautions.

- Follow all public health recommendations.
- Mandatory masks for staff and students in grades 4-12.
- Masks highly recommended for students in K - grade 3.
- Mandatory masks for all students riding the school bus.
- Seating plans on the bus and in classrooms for contact tracing, if needed.

Scenario 2

If we need to move to partial in-school classes, there will be some adjustments.

- K-12 in-school classes on alternating Day Schedule to reduce class sizes.
- Students from the same family can attend classes on the same days.
- Follow all public-health recommendations.
- Mandatory masks for staff, and students in grades 4-12.
- Masks highly recommended for students K-grade 3.
- Mandatory masks for all students riding the school bus.
- We will use Google classrooms for instruction, and students will use their chrome books.
- Youth Centre will help coordinate students' physical activity and outdoor time.

Scenario 3

If in-school classes are suspended, learning will continue at-home.

- Student do all classes at home and schools are closed.
- We will use Google classrooms for instruction, and students will use their chrome books.
- Education staff will ensure that packages are delivered to the students.
- Grades 7-9 would focus on language arts, mathematics, science, social studies, and wellness.
- Grades 10-12 would focus on course requirements for high school graduation

Are your child's vaccines up to date?

Illness Protocol

If you are a school employee, student, or visitor, and you don't feel well, **STAY HOME**.

Use the daily screening questionnaire, included in this booklet, before sending your child to school.

What happens if you feel unwell after you arrive at school?

- You must go to the school's isolation/infirmity room and wear a face covering until your family picks you up.
- The school will be thoroughly cleaned and disinfected.
- After leaving the school, complete the online COVID-19 self-assessment tool. The tool advises if testing is required and allows users to book an appointment immediately.
- Anyone who tests positive for COVID-19 is asked to notify Fort McKay E-Learning School to ensure proper cleaning and public-health measures are followed.

What if your child has symptoms, but also has a medical condition like allergies?

Students with allergies or other medical conditions that cause symptoms similar to COVID-19 should get at least one negative COVID-19 test before the start of the school year. You know your child best. If their symptoms are normal for them and do not change, your child can go to school.

What happens if there is a confirmed COVID-19 case in our school?

1 Confirmed Case

The school will be on an ALERT status. AHS will be informed, and parents will be notified. Contact tracing will be done, and any public health orders followed.

2 or More Confirmed Cases (within a 14-day period)

This is considered an OUTBREAK. AHS will be informed and will work with the school to complete contact tracing. Parents will be informed. Public health measures from the Zone Medical Officer of Health will be followed, and we may move to partial in-class or at-home education.

5 or More Confirmed Cases

Parents will be informed. This information will be reported AHS website. The school will work with public health on contact tracing and monitoring ongoing disease activity. Student will do at-home learning until the outbreak is determined to be over.

The privacy of affected students or staff will be protected.
